

Main Idea - Short Texts from Happy Frog Apps

App Description

** Happy Frog Apps are featured on FunEducationalApps.com. TeachersWithApps.com, Appolicious.com, iHeartThisApp.com **

'Main Idea-Short Texts' helps kids who have trouble with reading comprehension. Identifying the main idea is a key part of reading comprehension as it allows you to figure out 'what a text is about'.

'Main Idea -Short Texts' builds this comprehension skill step-by-step until mastery.

Accolades for the first app in the Main Idea series...

***** 5 Stars - Thank you for this app! Other software I've used has moved too quickly for my son. This one worked!

***** 5 Stars - This app is one the best education apps I have used with my little one. It really helps to improve his reading abilities. He is obsessed with passing the levels and it never let him disappointed. One of the few apps that worth to upgrade to premium version.

'Main Idea - Short Texts' is targeted to children in Grades 2-5 who can read the words (decode), but don't understand what they read. Beginning readers in earlier grades can also benefit from the targeted skill development.

The focus of 'Main Idea - Short Text' is teaching kids how to identify the main idea of a paragraph. The skill is built incrementally using visual guides.

Key Benefits:

- Builds comprehension skills step-by-step until mastery.
- Incremental learning. New levels are unlocked only when your child is ready.

- Errorless learning for less frustration. Your child will always be guided to the correct answer.
- Fun and engaging Reward Center to increase motivation.
- Easy parental review. Just check out the stars to see how your child is doing.
- Content designed by professional teachers and researchers.
- Advanced levels include timers to ensure fluency. Research shows fluency in the foundation skills is critical to reading comprehension.
- Can be used independently (just hand it over: your child will know what to do!) or with a therapist/parent for reading intervention.

The app can easily be reset to work with a different student.

Our apps are designed for and tested by typical and special needs children. Testers include children with Autism and other special needs. Our apps work for them!

This edition has four free levels to evaluate the app. A single in-app purchase provides access to the remaining levels.

The School Edition of this app has no in-app purchases.
